

## SCHOHARIE WATERSHED MONTH EVENT

# Arresting the Floodwaters: Hold your Ground with Native Plants

Saturday, May 4<sup>th</sup>, 2019  
2:00pm-4:00pm

### What is Schoharie Watershed Month?

Each May, the GCSWCD organizes Schoharie Watershed Month events to provide education about water quality, watershed protection, and local stewardship to the general public.

### Located in the Schoharie Watershed:

This event takes place within the Schoharie watershed. The Mountain Top Library is located near the Sawmill Creek, which flows into the Gooseberry Creek, a tributary to the Schoharie Creek.

### EVENT LOCATION:

**Mountain Top Library**  
6093 Main Street  
Tannersville, NY 12485

**REGISTER BY:**  
Thursday, May 2<sup>nd</sup>

Register online at [www.gcswcd.com](http://www.gcswcd.com) or by calling 518-622-3620.

For questions, contact GCSWCD:

518-622-3620

Photo provided by Carolyn Summers.

### Event Description:

We used to say “it rained.” Now we refer to “rain events.” We’ve all seen wet weather cause erosion and flooding. Through a slide presentation and guided walk, author and landscape designer Carolyn Summers will present information on ways to harness wet weather to beautify landscapes, create better wildlife habitat, and prevent erosion.

### Registration:

Registrations required by Thursday, May 2<sup>nd</sup>. Space is limited. Register online at [www.gcswcd.com](http://www.gcswcd.com) or call 518-622-3620.

### Schoharie Watershed Month:

This is a Schoharie Watershed Month event. For more information about Schoharie Watershed Month, or to view a complete listing of events for May 2019, go to [www.gcswcd.com](http://www.gcswcd.com) or call 518-622-3620.
